The Maintenance Manager reported that all surplus vehicles provided to Elhi Auctioneering sold, for which we received and deposited a check in the amount of $32,850.00.

Also reported by staff was an increase in vandalism on busses and in shelters within the last month, specifically tagging graffiti with Sharpies/ink pens. 3. Financial Planning Committee Report
Sara Wazewski summarized discussion from the October 5, 2010 meeting: presented to the committee was the news release describing the final stages of MTA’s budget process. Sales tax revenue projections made by the Washington Economic and Revenue Forecast Council presented revenue expectations for the 2011-2013 biennium for the state is estimated to be $669 million lower than initially projected. Discussions on healthcare benefits costs: keeping current plan is not an option due to cost increase. All options offered were higher out-of-pocket costs, increased deductibles, and higher co-pays. Explored other plans outside of WCIP only to discover our demographic does not allow for any savings and once we leave WCIP we cannot return. Committee recommended MTA stay with WCIP; the Preferred Provider 500 Health Insurance Plan was chosen for the year 2011. Next Committee meeting is scheduled for October 21, 2010
