RESOLUTION NO. 2010-11
ADOPTING A SURPLUS VEHICLE GRANT PROGRAM

A RESOLUTION adopting the Surplus Vehicle Grant program, through which Mason County Transportation Authority (Mason Transit) would grant surplus vehicles to qualifying organizations which meet public transportation needs.

WHEREAS, Mason County Transportation Authority is a public transportation benefit area (PTBA), operating under the authority of Chapter 36.57A RCW. The central purpose and authority of a PTBA is to provide public transportation services within its area. See RCW 36.57A.020 and 080. The area of Mason Transit includes all of Mason County.

WHEREAS, even with its recent tax revenues, Mason Transit does not have the means or revenue to meet all the public transportation needs within its area. A significant part of these unmet public transportation needs is found in the members, clients, or other users of the services supplied by many nonprofit organizations and community groups in areas not served by fixed routes, as well as users of services provided by local governments.

WHEREAS, the granting of surplus vehicles to these organizations and to certain governmental agencies would fulfill many of these unmet public transportation needs and would thus provide better public transportation services within Mason Transit's area. This program would increase the mobility, access and transportation options of residents of the PTBA and would tend to reduce the use of private vehicles.

WHEREAS, Mason Transit has surplus vehicles which are suited to this purpose.

WHEREAS, to ensure that this program serves public, not private transportation needs, only government agencies and private nonprofit organizations qualifying under 26 USC 501(c)(3) will be eligible to participate. To ensure that the benefits to public transportation are both tangible and accountable, applicants will be required to describe the population and area to be served, the purpose of the transportation provided, the type of service they would provide, the extent of vehicle use, the expected number of passenger trips, how the transportation will be coordinated with other community programs and with Mason Transit, how the public transportation needs of the organization are presently not met, and their current methods of transportation.

WHEREAS, to further ensure that the program provides tangible benefits to public transportation, the staff shall develop a set of selection criteria aimed at choosing participants which will best serve unmet public transportation needs of the Mason Transit area. The staff shall also develop a set of monitoring requirements to ensure that participants continue to serve these purposes.

WHEREAS, the public transportation function of Mason Transit is served by providing trips within its area and trips that originate within its area. This purpose is not served by a participant providing trips which originate outside its area and thus serve a population outside Mason Transit. For this reason, all grantees should be located within Mason Transit's area and should demonstrate that they would provide trips originating within that area.

WHEREAS, to further ensure that this program is used to meet a public transportation need of Mason Transit, and not serve predominantly private purposes, trips supplied through this program must remain within a 150 mile radius of the Mason Transit PTBA.

WHEREAS, this program is not intended to make gifts or donations to any person or organization. Consideration to Mason Transit will be assured in two ways. First, the General Manager shall require periodic reports from grantees which demonstrate, consistently with sound accounting principles, that the value of the trips the grantee provides with a vehicle is at least as great as the market value of the vans at the time of the grant. Second, the purposes and selection criteria of this program will insure that a participant in this program supplies tangible and valuable services to Mason Transit through the provision of public transportation within Mason Transit's area. These trips and services constitute payment of true and full value for the vehicles.

WHEREAS, to ensure compliance with RCW 42.17.130, the vehicles should not be granted to political organizations or used for assisting a campaign for election or for the promotion of or opposition to any ballot proposition.

NOW, THEREFORE, BE IT RESOLVED BY THE MASON TRANSIT AUTHORITY AS FOLLOWS:

1. The General Manager shall implement a program in which Mason Transit may grant surplus vehicles to eligible organizations for uses which will help satisfy unmet public transportation needs in Mason Transit's area. Eligible organizations are limited to government agencies and private nonprofit organizations qualifying under 26 USC 501(c)(3).

2. The General Manager shall develop an application form which requires applicants to describe the population and area to be served, the purpose of the transportation provided, the type of service provided, the extent of vehicle use, the expected number of passenger trips, how the transportation will be coordinated with other community programs and with Mason Transit, how the public transportation needs of the organization are presently not met, their current methods of transportation, and any other relevant information.

3. Applicants under this program shall certify that they have the financial and management capacity to insure vehicles and to maintain vehicles in good working condition, if selected.

4. The General Manager shall develop a set of selection criteria which, based on the information described in Sec. 2, above, will select participants which will best serve unmet public transportation needs within Mason Transit's area. The General Manager shall also develop a set of monitoring requirements to ensure that participants continue to serve these purposes.

5. Vehicles granted under this program may only be used to provide trips which originate within the Mason Transit PTBA and which remain within a 150 mile radius of the Mason Transit PTBA. Vehicles granted under this program may only be used to provide trips which serve an unmet public transportation need and which are authorized in the agreement discussed below.

6. All grantees are required to sign an agreement with Mason Transit which requires them to follow the terms of this Resolution, to properly maintain the vehicle, and to comply with Mason Transit's monitoring program. The agreement shall set out the type or purpose of transportation which the grantee shall provide with the vehicle and shall prohibit use of the vehicle for other purposes. The agreement shall specify that the vehicle is granted "as is" and with no express or implied warranties of any type, that the grantee is responsible for all licensing, permits and insurance, and that the grantee shall sign a hold harmless agreement acceptable to Mason Transit. The agreement shall also contain remedies for Mason Transit for breach or nonperformance by the grantee, including but not limited to forfeiting the vehicle to Mason Transit.

7. To ensure compliance with Chapter 36.57A and to ensure that charter services are not authorized, participating organizations shall only provide transportation to their clients, members, guests or other similar users with vehicles supplied under this program. They shall not provide transportation to the general public.

8. To ensure compliance with RCW 42.17.130, vehicles may not be granted to political organizations. The agreement described above shall require the grantee to promise that it will not use the vehicle for assisting a campaign for election or for the promotion of or opposition to any ballot proposition.
