## POL-1001 TRANSIT ADVERTISING POLICY

### 1.0 PURPOSE:

1.1 Mason County Public Transportation Benefit Area, doing business as Mason Transit Authority. Mason Transit Authority (MTA) operates one of the most unique and innovative bus systems in the nation. The transit system is a vital component of the broad spectrum of public services provided in Mason County. MTA's transit advertising program is intended to generate revenue to support the transit system.

1.2 Advertising as Revenue Source. MTA's operations are funded by a combination of federal, state and local funds, including grants and taxes, as well as fare box revenue. Advertising revenues may be an important additional source of revenue that supports transit operations. The agency's fundamental purpose in accepting transit advertising is to generate revenue to augment the operating budget.

An advertising program shall only be implemented when the benefits to the agency outweigh the potential costs or burdens.

The primary purpose of the transit system is to provide safe and efficient public transportation within its service area. Consistent with this purpose, the agency places great importance on maintaining secure, safe, comfortable and convenient Transit Facilities and Transit Vehicles in order to, among other things, be consistent with the provision of effective and reliable public transportation, retain existing riders, and attract new users of public transit services. To generate additional revenue while also accomplishing the primary objectives of transit operations, MTA will accept advertising on or in its Transit Facilities, Transit Vehicles and Transit Publications (i.e. website, system schedules, brochures, social media, rider's guide, outreach materials, electronic signage and other resources at the discretion of the Outreach Manager) only if such advertising complies with this Advertising Policy.

1.3 Limited Public Forum Status. The agency's acceptance of transit advertising does not provide or create a general public forum for expressive activities. In keeping with its proprietary function as a provider of public transportation, the agency does not intend its acceptance of transit advertising to convert its Transit

Vehicles or Transit Facilities into open public forums for public discourse and debate. Rather, as noted, the fundamental purpose and intent is to accept advertising as an additional means of generating revenue to support its transit operations. In furtherance of that discreet and limited objective, the agency retains strict control over the nature of the ads accepted for posting on or in its Transit Vehicles and Transit Facilities and maintains its advertising space as a limited public forum.

Certain types of advertisements can potentially interfere with the program's primary purpose of generating revenue to benefit the transit system. This policy advances the advertising program's revenue-generating objective by prohibiting advertisements that could detract from that goal by creating substantial controversy, interfering with and diverting resources from transit operations, and/or posing significant risks of harm, inconvenience, or annoyance to transit passengers, operators and vehicles. Such advertisements create an environment that is not conducive to achieving increased revenue for the benefit of the transit system or to preserving and enhancing the security, safety, comfort and convenience of its operations. The viewpoint neutral restrictions in this policy thus foster the maintenance of a professional advertising environment that maximizes advertising revenue.

This policy is intended to provide clear guidance as to the types of advertisements that will allow MTA to generate revenue and enhance transit operations by fulfilling the following goals and objectives:

- Maximizing advertising revenue;
- Preventing the appearance of favoritism by MTA;
- Preventing the risk of imposing demeaning or disparaging views on a captive audience;
- Maintaining a position of neutrality on controversial issues;
- Preserving the marketing potential of the advertising space by avoiding content that the community could view as demeaning, disparaging, objectionable, inappropriate or harmful to members of the public generally or to minors in particular;
- Maximizing ridership;
- Avoiding claims of discrimination and maintaining a non-discriminatory environment for riders;

- Preventing any harm or abuse that may result from running demeaning, disparaging or objectionable advertisements;
- Reducing the diversion of resources from transit operations that are caused by demeaning, disparaging, objectionable, inappropriate or harmful advertisements.

Mason Transit Authority's Transit Facilities and Transit Vehicles are a limited public forum and, as such, MTA will accept only that advertising that falls within the categories of acceptable advertising specified in this viewpoint neutral policy and that satisfies all other access requirements and restrictions provided herein.

MTA reserves the right to suspend, modify or revoke the application of any of the standards in this Policy as it deems necessary to comply with legal mandates, to accommodate its primary transportation function, or to fulfill the goals and objectives identified above. All of the provisions in this Policy shall be deemed severable.

1.4 Application of Policy. This Transit Advertising Policy applies to the posting of all new advertisements on or in Transit Facilities, Transit Vehicles and Transit Publications on or after the Effective Date.

1.5 Disclaimer of Endorsement. MTA's acceptance of an advertisement does not constitute express or implied endorsement of the content or message of the advertisement, including any person, organization, products, services, information or viewpoints contained therein, or of the advertisement sponsor itself. This endorsement disclaimer extends to and includes content that may be found via internet addresses, quick response (QR) codes, and telephone numbers that may appear in posted ads and that direct viewers to external sources of information.
