

What is changing February 3, 2020?

- Route 1: Adding 12:30PM Route 1 from Shelton to Belfair Monday- Friday and on Saturdays. Also adding 9:15AM to and from Belfair and 3:20PM Route 1 from Belfair to Shelton on Saturday.
- Route 2: This Route will be eliminated. We are adding service to the Route 1 and Dial-a-Ride service will be used to cover this service area.
- Route 4: Eliminating HUB time points, this location will be serviceable by dial-a-ride or as a deviation request on the route 4.
- Route 5: No routing changes. Times were changed to improve connections and service times to South Shelton. This route used to start at the TCC at :02 after the hour, the new departure time will be :30 after the hour.
- By changing the departure times, riders looking to go to the Shelton Outfitter area will now have 30-minute service instead of hourly service as it was before by utilizing the Route 5 and 6.
- Route 6 and 26: Adding more service during peak commuter times. Also streamlining departure times to make it more consistent for the riders as well as making better connections both inbound and outbound with Intercity Transit.
- Route 7: No routing changes. Times were changed to improve connection times. Due to changing the Route 5 times to improve service, Route 7 departure times will change to :00 after the hour rather than :30. This way riders looking to travel from the TCC to the Walmart area will have 15-minute service when using the Route 5, 7 and the Zipper.
- Zipper Route: Expanding service from 10:15AM-3:45PM to 8:15AM – 5:15PM. This change means that from 8:15AM-5:15PM riders will have 15-minute service from the TCC to the Walmart area.
